The Municipal Engineers of the City of New York will celebrate their Annual Dinner-Dance and Installation of Officers at Terrace on the Park in Flushing Meadow Park. The affair will take place on Friday, November 16, 2012.

Brian Gill, P.E., and Bharat Parekh, P.E., have been nominated as President and First Vice President respectively.

This year we will be honoring Eric C. Macfarlane, P.E., of the New York City Department of Design and Construction (DDC). As Deputy Commissioner of DDC, Mr. Macfarlane heads the Infrastructure Division with a technical staff of 430. The Division is responsible for the design and construction of the consolidated roadway, sewer and water main capital infrastructure construction programs of the City of New York. The division has a 5 years capital plan portfolio of over 300 design and construction projects City-wide, estimated at \$3.8 billion. Eric has a Bachelor of Engineering Degree from the City College of New York and Master of Science, Civil Engineering Degree from Polytechnic Institute of New York (NYU-Poly). He is a New York State licensed Professional Engineer.

We are also honoring Paul Schwartz of New York City Department of Transportation (DOT) as Young Engineer of the Year. As a member of DOT's Bridge Maintenance Division, Paul has played a critical role in the success of the East River Bridge anti-icing program where DOT forces use non-traditional and less corrosive materials to keep the 4 East River Bridges clear of snow and ice. Paul is responsible for the day to day administration and emergency response functions of the bridge pm section. Paul has a Bachelor's Degree in Industrial Engineering.

It would be our pleasure should you decide to join us on this festive occasion. We have provided the Reservation Form below for ordering tickets. Hope to see you on Friday, November 16th at 7:00 p.m.

Yours truly

*Suresh K. Ceyyur and Andy Lalchandani
The Committee Co-Chair*
