The Municipal Engineers

of the City of New York

The Municipal Engineers of the City of New York will celebrate their Annual Dinner-Dance and Installation of Officers at Terrace on the Park in Flushing Meadow Park. The affair will take place on Friday, November 16, 2018.

Tariq Bashir, P.E. and Mohammad Arain, P.E. have been nominated as President and First Vice President respectively.

This year we will be honoring Anastasios (Tasos) Georgelis, Deputy Commissioner for Bureau of Water and Sewer Operations, New York City Department of Environmental Protection as **The Municipal Engineer of the Year**. Mr. Georgelis is a NYS Licensed Professional Engineer and holds a Bachelor of Engineering from the Cooper Union. Mr. Georgelis's primary responsibility is to provide residents of New York City with delivering the best quality of drinking water as well as the collection and management of stormwater and wastewater. This is accomplished through the Bureau's annual construction program of over \$1 billion.

We will also be honoring Mr. Philip Eng, P.E., President of the Long Island Rail Road as **Industry Leader**. Billions of dollars in key infrastructure investments, including the Double Track Project, are currently underway at LIRR under Mr. Eng's leadership. Before joining the LIRR, Mr. Eng was the Chief Operating Officer at MTA. He started his career in public service at NYS Department of Transportation (NYSDOT). A graduate of Cooper Union, Mr. Eng earned his Bachelor of Engineering degree and is a licensed professional engineer in NYS and a member of the American Society of Civil Engineers.

Our **Municipal Young Engineer of the Year** award goes to Natalia Perez, P.E. Ms. Perez has been with the NYC DEP for six years. She obtained her bachelor's degree in Civil Engineering from the University of Florida, and her master's degree in Environmental Engineering from the University of California, Berkeley. She is an Envision Sustainability Professional and a licensed Professional Engineer in the State of New York and California.

In addition, our **2018 Municipal Project of the Year** award goes to The New NY Bridge Project (Mario M. Cuomo Bridge). The New NY Project replaces the existing Tappan Zee Bridge with new 3.1 Mile state-of-the-art, twin span Governor Mario M. Cuomo Bridge across Hudson River between Rockland and Westchester Counties. The new bridge provides eight general traffic lanes plus emergency lanes and extra wide shoulders. In addition, to accommodate vehicular traffic the new crossing carries a shared new path dedicated to bicycles and pedestrians.

It would be our pleasure should you decide to join us on this festive occasion. We have provided the Reservation Form below for ordering tickets. Hope to see you on Friday, November 16th at 7:00 p.m.

Yours truly

Ray Girgis, Mehdi Asharian, Andy Lalchandani
Committee Co-Chairs

RESERVATIONS CLOSE ON NOVEMBER 9, 2018
